About MORKMENTS

"Morkmentas is the leader in IP security solutions. We provide our clients with the latest technology for secure, reliable, and cost-effective solutions for their security needs. Our team of experts is dedicated to offering the best products and services to our clients, so they can have peace of mind knowing their assets are safe and secure. We are committed to offering solutions that are tailored to the needs of our customers, so they can rest assured that their safety is in good hands."

Morkmentas - The name originated and was inspired by the concept. "Mork is a computer file format used by several email clients and web browsers produced by Netscape, and later, Mozilla Foundation. It was developed by David McCusker with the aim of creating a minimal database replacement that would be reliable, flexible, and efficient, and use a file format close to plain text." and ."... mentas is reputation "

Morkmentas targeted to follow the principals and offer its best solutions which should be triangular aspects as work as...

- *Well formatted - reliable, flexible, and efficient*
- *Highly-regarded & integrated*
- *Well-respected solutions will automate, save, and secure your valuables.*

More than 800 installations combain CCTV and Intercom and access control system completed. Trunkey Project serviced 25 nos. Live AMC for 5 projects.

About Services

We offer comprehensive support for your one-year service, including onsite and online assistance, annual maintenance contracts, reasonable installation, commissioning, and training costs. As an authorized service partner, we ensure principal technical consultancy during project execution. For repair services exceeding 72 hours, we provide substitute products to minimize client inconvenience during the first year or AMC period. We also offer free pick-up and drop services, dedicated service engineers per site, and online support through Hikvision's authorized service portal.

Solutions by Industry

Focused on each business process

Each industry consists of a finite number of scenarios. We believe that the key to the success of an entire solution is its ability to meet the requirements and challenges in each scenario. That's why we keep digging into the basic needs and untapped demands scenario by scenario, and direct our best engineering to offer dedicated solutions

Apartments , Factories, Classroom Hub, Urban Roadways, Offices, Stores, Bus Stop, Car Dealerships, Conference Rooms, Construction Site, Electrical sbstations, Gas Stations,Highways, Hotels, Monitoring Center, Parking Lots, Schools, Shopping Malls, Transit Bus On-board, Warehouses, Onshore Oilfields, Supermarkets, Offshore Oil Platform

Our Team

Mr. Rahul, a DERE passout from 1993, has built a successful career in technology solutions and connectivity product marketing. After a decade in marketing, he transitioned to " system integration" for technology products in 2006. With 18 years of experience in this field, he specializes in installing CCTV systems, access control security, and designing comprehensive surveillance solutions. His company's achievements stand as testaments to his expertise and dedication in the industry.

Mrs. Kanchan is an experienced professional with 15 years in business and administration, skillfully managing daily operations and projects. Her strong management and administrative skills enable her to work closely with principles, ensuring smooth and efficient business functioning

Mr. Milind, with 15 years of expertise in cable networking, particularly Cat6 and fiber optic connectivity, demonstrates excellent cable management skills that contribute to the success of technology projects. His proficiency in this area ensures smooth hardware installations, while his experience in handling government tenders for over two decades highlights his versatility and expertise in various domains.

Mr. Kalpesh, with his electrical diploma and expertise in various systems, joins our team in 2023 to enhance hardware operations, leading to improved project execution and overall success.
